NEW YORK, June 7.—William J.

the death in prison of Dr. Ruiz, an
American citizen, reached this city on
his return today, accompanied by
George W. Fishback, his secretary, and
Charles M. Pepper, a Washington newspaper correspondent who went to Cuba

Washington by Gen. Lee.
In a brief interview as to his mission
Calhoun said: "We had no positive or
direct proof of any assault whatever,
and the conclusion arrived at must be based on the detailed evidence in the report of Consul-General Lee, which is now on the way to Washington. I my-self will make no report, and prefer not to say anything as to my idea of the until the report is made public by the proper authorities at Washington. I shall go to Washington tomor

Mr. Calhoun said that he had been
treated courteously in Cuba by all with
whom he came in contact. In a later
interview he said:

"The island of Cuba is rapidly being

bitter civil war, so that in a short time

"Furthermore, the adherents of both sides are exceedingly intense. They tell their stories just as they want you to believe them. From the Spanish point of view, the island is practically pacified, and from that of the Cubans the insurgents never were in such excellent shape as they are now."
"Did you go to the interior of the island?" was asked.
"Yes. I went from Hayana to Matan."

"Yes, I went from Havana to Matan-is. While both are on the seacoast zas. While both hre on the seacoast still to go from one point to the other by rail takes you through a large part of the interior country. "What is the condition of the country?"
"It seems to be entirely depopulated, and there are no signs of any buildings standing except at the railroad stations. These, by the way, are practically forts. I was generally informed that the same condition of affairs exists throughout the Cuban island from Havana to Pinar del Rio, except in the extreme eastern end. There is where the Cubans get their supplies and their cattle. They control that section. It was that portion of the island which held out ten years in the last war. "Cuba is undoubtedly a magnificent country. It is rich and beautiful, and the soil responds bountifully to the seed. While I am not called upon to make any formal report to the President, because I acted merely as a counsel to Gen. Lee in the Ruiz case still I

Mr. Williams was asked what were his opinions of the political condition of affairs in Cuba. He replied: "They are just as I predicted in my reports of a quarter of a century ago. Spain will have to make concessions the same as England did to her colonies. The Cubans must be allowed to make their own laws and have entire control of the expenditures of their finances."

NEW YORK, June 7.—A Herald spe-cial from Havana says that a strong appeal on behalf of the starving and dying reconcentrados in Matanzas who excited pity in the hearts of Gen. Lee and Mr. Calhoun has been made to the people of the United States.

Since the United States government has begun measures for the relief of its citizens in Matanzas, the desperate plight of the Cuban reconcentrados there has resulted in a petition, signed there has resulted in a petition, signed by a hundred of them, in which they beg in the name of common humanity that they be included in the charity. The petition is headed: "An appeal to the United States." It is now on its way to Washington. The principal part

"First and foremost, let it be said that in unhappy Cuba we can do nothing to help our suffering countrymen. The pacificos that have huddled in our trie pacineos that have huddled in our city would be looked upon as traitors for so doing, and as such we would be summarily dealt with. We must not feel for them; we must be blind and deaf to their sufferings and do nothing

that can in any way interfere with Weyler's policy of extermination.

"We have to witness day after day scenes of horror which no language can describe, and yet no voice can be can describe, and yet no voice can be lifted to protest against them. To Spain we cannot apply for succor. She is well acquainted with the present condition of affairs in Cuba, and so far not a farthing has come to us from her, and yet we have sent her our money freely whenever the Spanish people have been in want or distress. "Upward of ten thousand of the victims of this savage system of warfare

"In any other country, this state of affairs would have brought on disturbances and riots; yet our people, suffering as they are, have not done anything that could in any way disturb order. Can there be a better illustration of a peaceful disposition?
"Tender, loving mothers of America, to you in particular we appeal in our humane undertaking. Send us the mighty aid of your motherly cooperation; enlist in our crusade against crime and barbarity, and the blessings of thousands will rise to heaven as a fit hymn in your praise. Think that at your very doors there are mothers who love as dearly as you love, and who day after day see their little ones perish in the streets out of sheer hunger, and in most cases without a piece of rag to cover their nakedness.
"As for us, we cannot do our work openly. We have to beg for food for the hungry and clothing for the naked, concealing ourselves and our names as if we were doing something wrong, and we therefore suggest that if any relief is to come, it should-be-entrusted to the American consuls for distribu-

OMAHA. June 7.—That the Union Pacific Railway is energetically fighting the new western combinations of rail-roads, including lines between here and Denver, the Denver and Rio Grande, the Rio Grande Western and the Oregon Short line, is evidenced by the manner in which freight trains are be-ing rushed through to the West. Since June 1, when the Oregon gateway to the northwest territory was thrown open to other roads, the freight traffic artment has been exerting itself on fast service. Freight trains are being rushed from Council Bluffs to Oglen in time nearly as fast as that of passenger train No. 3 (the fast mail.)
Nearly every train that went west
on the Union Pacific last week ran to
Ogden in considerably less than forty
hours. Thirty-four hours was the time
for a half-dozen freight trains, but the
banner run was announced this morning. The freight train that left Council
Bluffs late Saturday arrived in Ogden
early this morning, covering the 1053
miles in thirty-three hours and fortyone minutes.

The west-bound freight time has been

[BY ASSOCIATED PRESS WIRE.]

NEW YORK, June 7.—A dispatch to he Herald from Buenos Ayres says hat serious threats and demonstra-ions against President Moraes of Brazil have been made in Sao Paulo according to the Herald's correspondent in Rio de Janeiro. In several instances the military were ordered out to aid the police in quelling the disorder.

Much disorder has occurred in the Brazilian Congress over the diplomatic correspondence with France in regard to the disputed territory of Amapa. The agitation was caused by the refusal of the Minister of State to communicate the details of the correspondence to the chamber.

The government military school has been closed as a result of the insubordination caused by designing politicians and army men.

Senator Aldrich is expected to be present at the caucus. He is convalescent and his friends say he will be abe to attend tomorrow's meeting. It is probable that the caucus would not be held in his absence. There are various questions which will be taken up in the caucus if the sugar question does not occupy the entire time. These include the tea duty, the agitation for an increase on wool, the beer tax, the proposition to tax bank checks, deeds, etc., the hide duty, the lead-ore rates, etc. The indications now are very strong that beer and tea will both go out of the bill.

This is practically decided upon by the committee, unless they are found to be absolutely necessary for revenue. It is also quite certain that there will be an increase in the woolen duty. The supporters of the hide duty and of the Senate rate on lead ore express.

THE TARIFF TROUBLE.

WASHINGTON, June 7.—The Senate today disposed of the lumber parasgraph, which has been more stubbornly contested than any feature of the bill thus far, by defeating the motion of Senator Vest to place white pine on the free list; yeas, 20; nays, 33. The contest was mainly significant in breaking party lines, which have been maintained with few exceptions, during the early stages of the debate. On the final vote eight Democrats voted against Mr. Vest's proposition, namely, Messrs. Bacon and Clay of Georgia, McEnery of Louisiana, McLaurin and Tillman of South Carolina, Martin of Virginia, Rawlins of Utah, and White of California. On the other hand, Mr. Carter of Montana (Rep.) and Messrs. Cannon and Manile (silver Republicans,) voted for the Vest motion. Following this a vote to substitute the Wilson lumber schedule was agreed to as reported. The debate preceding the vote was at times very breezy, owing to the break of political lines.

A general discussion of the future programme or the bill occurred before the Senate adjourned. It led to statement by Mr. Allison, in charge of the bill, that the committee probably would submit amendments to the suger schedule. For this reason he announced that the sugar schedule would be passed over tomorrow, and that the tobacco schedule would be taken up. THE TARIFF TROUBLE.

FIFTY-FIFTH CONGRESS. EXTRA SESSION.

IBY ASSOCIATED PRESS WIRE.] WASHINGTON. June 7.—SENATE.— Consideration of the Tariff Bill was re-sumed soon after the session opened. sumed soon after the session opened, and the discussion proceeded on the paragraph placing a duty of \$2 per 1000 feet on lumber. Senator Allen (Pop.) of Nebraska moved to substitute the provisions of the Wilson Bill, which placed lumber on the free list. The Senator spoke in particular against restoring white pine to the dutable list. Senator spoke in particular against restoring white pine to the dutiable plist, urging that the rates designated would be prohibitory against Canadian pine.

Mr. Caffery of Louisiana opposed the duty on white pine, and incidentally criticised the position of Mr. Bacon of Georgia who, he said, favored a protective duty. This the Senator from Georgia denied.

Mr. Caffery announced his opposition

to all protective duties, but favored the imposition of duty for purely revenue purposes. He said the supply of pine in this country was inexhaustible, and repudiated "the reputed" representatives of lumber of his State and every. State who went before the Ways and Means Committee and asked a duty of \$2. He could not, he said, find a single basis for this duty on lumber so far as the southern timber interests were concerned.

"The platform I stand on," interposed Mr. Bacon, "the orthodoxy of which the Senator from Louislana may not subscribe to (Mr. Caffery supported the Indiannealis seld ticket), warrants were deady to proceed tomorrow on any

the southern timber interests were concerned.

"The platform I stand on." interposed Mr. Bacon, "the orthodoxy of which the Senator from Louislana may not subscribe to (Mr. Caffery supported the Indianapolis gold ticket,) warrants my position. The Chicago platform said: We favor a tariff for revenue duty with duties so adjusted as to operate equally throughout the country and not discriminate as to class or section. That is the plank in the platform upon which I stand," said Mr. Bacon.

Mr. Caffery, with some display of temper, announced that there was not an iota of protection in his make-up.

"I favor a duty on sugar," said he emphatically, "because the duty goes into the treasury of the United States. You favor protection on articles which enables manufacturers of those articles senables manufacturers of those articles.

into the treasury of the United States. You favor protection on articles which enables manufacturers of those articles to put the equivalent of the duty in their own pockets."

Mr. Bacon and Mr. Caffery had a sharp exchange and seemed about to subside, when Senator Hoar again made some rather sarcasite references to Mr. Caffery's inconsistency, describing him as a free-trader who cried always "Sugar, sugar, sugar," and who, when the Wilson Bill was before the Senate, was so doubtful of what the bill would do for sugar, that he voted "aye" on the sugar schedule and "no" on the final passage of the bill, and thenchanged to "yea."

changed to "yea."

Mr. Bacon protested at being termed
a free-trader. He favored additional
duty on raw materials.

"All raw materials that compete with "All raw materials that compete with products of Georgia," remarked Mr. Hoar amid laughter. "If we could commit the framing of a tariff bill to the free-trade Senators who are conducting the debate on the other side," said he, "after its passage we would discover that every industry in the respective States had been amply protected. [Laughter.] Morally, there is a great deal of human nature in the Democrats."

The merriment was so great that the

The merriment was so great that the The merriment was so great that the chair was called upon to suppress it. Mr Bacon sought to turn the argument against Mr. Hoar by asking his position as to the duty on hides, but the Massachusetts Senator, after expressing his ideas on the subject, narrowly avoided committing himself by asserting that in such a bill as the present he would yield his individual convictions if he could not persuade his colions if he could not persuade his col-

he would yield his individual convictions if he could not persuade his colleagues that he was right.

Mr. Jones of Arkansas characterized as absurd the claim that this country was being flooded by foreign manufactures of lumber in the face of the fact that but \$7,500,000 worth of lumber was imported last year, against \$540,000,000 consumed. He spoke of the "innocent" lumber barons of the Northwest, who wanted the people of the country to pay for the alleged stumpage paid by them, the great risks they ran on account of fires, etc., as set forth age paid by them, the great risks they ran on account of fires, etc., as set forth in the petition to the Ways and Means

Mr. Spooner of Wisconsin protested against the arraignment of lumbermen as a whole because of the unscrupulous methods of a few, and paid a high tribute to the integrity and high public spirit of the better class. Mr. Spooner called attention to the remarkable nature of Mr. Vest's amendment, which proposed to exclude white pine

able nature of Mr. Vest's amendment, which proposed to exclude white pine from the general duty of \$2 on timber. Why should the lumber interests of Minnesota. Wisconsin and Michigan be dealt this blow?

Mr. Vest disclaimed any intention of discriminating, and said he would be willing to withdraw his amendment and take the yeas and nays on Mr. Allens' amendment to put all lumber on the free list. All he wanted, he said, was a test vote on free lumber. Mr. Spooner expressed his willingness to agree to this, but Mr. Vest declined to withdraw his amendment.

To put white pine on the free list,

agree to this, but Mr. Vest declined to withdraw his amendment.

To put white pine on the free list, Mr. Spooner said, would give an undue advantage to Canada, and would amount to the confiscation of property of men who had invested their money on this side of the border.

From the standpoint of the Senator from Missouri, he said he could see some logic in the motion to put all money on the free list, but none in the proposition to single out white pine and leave the timber of New England, the South and West protected from Canadian competition by a duty of \$2.

Mr. Gray of Delaware spoke in opposition to a tax on lumber. If private ownership of land he said, is to be defended, it cannot be defended with the ideas that the owners have the right to tax the great body of the people before they can enjoy the bounties the land possesses. Upon the statement by Mr. Hale that Mr. Gray's remarks resembled those of a freetrader, the latter said he had no objection to the word "free" or "freedom."

Mr. Vest's amendment to except white pine lumber from the \$2 rate was lost by 20 to 38. The negative vote included eight Democrats, viz.: Senators Bacon and Clay of Georgia, McEnery of Louisiana, McLaurin and Tillman of South Carolina, Martin of Virginia, Rawlins of Utah and White of California: Heitfeld (Pop.) of Idaho, who has been voting with the Democrats, voted no. Mr. Allison offered a new paragraph, which was agreed to, placing a duty on boxes for fruit at 20 per cent. ad valorem: when such boxes are exported they may be reimported at one-half their rate.

stored.

The lumber paragraph, as a whole, was then agreed to; also the paragraphs on clapboards, shingles and chair-cane, heretofore passed over.

Mr. Allen then moved to substitute the provisions of the Wilson bill for the entire lumber schedule. Rejected by 21 to 37. This disposed of the wood schedule, and again brought the Senate up to the sugar schedule. Mr. White asked Mr. Allison as to the plans of the committee on going on with that schedule.

Mr. Allison responded that it was possible that some amendments might be made to the sugar schedule, so that he thought that it would be inexpedient to go on with it tomorrow. It was the purpose of the committee, however, to have that schedule considered as early as possible. If any changes were made they would be proposed in open they would be given gentlemen on the other side to consider them. If sugar went the sugar went are about consider them. The deluge of water caused enormous landslides from the mountains into the valley,

Almost all the riverside factories were destroyed, and no fewer than 500 workshops were wrecked. The town of Voiron presents a lamentable appearance. All the bridges are gone, and the streets are filled with masses of debris washed out from the factories and shops, bales of cloth, rolls of silk and similar manufactured products, while the roads of the town and the district around about are completely choked with rocks and fallen trees, or gullied with great washouts. Voiron is without gas, as the gasworks have is without gas, as the gasworks have een destroyed.

Many of the principal merchants are absolutely ruined and thousands of workmen are not only without employ-ment, but without shelter. So sudden ment, but without shelter. So sudden was the onrush of waters that hundreds barely escaped with their lives. They are an Attachment to the Great Unwashed—A Gathering at the Windy City.

[BY ASSOCIATED PRESS WIRE.] CHICAGO, June 7.—The leaders of the Silver Republicans are gathering in the city for a committee meeting Tues-day. Among those already here are: Ex-Congressman C. A. Towne of Min-nesota, Senator F. T. Dubols of Idaho,

Senator R. F. Pettigrew of South Da kota, Congressman Charles S. Hart-man of Montana, Congressman M. C. Jones of Washington and Gov. J. P. Lee of South Dakota.

June 8 was set for a meeting of the

Silver Republican forces in Chicago on February 22 last. At that time the four Senators and six Representatives of that faith sent out of Washington to the chairman of each State Central Committee a call for a meeting at this time. The object is to reorganize the party, and to extend it to every section of the United States. The committee consists of one member from

Besides those men-tioned above, Senators Teller, Stewart and Mantle and Congressmen Shafroth, Newlands and Carter are expected to-day. erature will be sent out through the country, and particularly the East, and a continual fight made from new until the next Presidential election. In an interview Congressman Hartman said: "We are here, not to divide the silver forces, but to unite them. We realize that silver is strongest among the Democrats, and we expect to heartily affiliate with them in anything that is for the advancement of the silver cause. However, many Republicans are not willing to call themselves Democrats or Popullists, and so we have to make a party for them. We are not for any individuals or party, but for silver. Our meeting here will be harmonious, and much good to the cause of silver will result from it."

Ex-Senator Dubois said: "The cause of silver will result from it."

Ex-Senator Dubois said: "The cause of silver is growing stronger every day. The money question is the greatest issue today, and we will keep up the fight for silver regardless of the work being done by the monetary commission now abroad."

Senator Pettigrew said: "I just arrived from Washington, where I have been making a hard fight on the lumber schedule in the Dingley Bill. We are making good progress now on the bill, and I think it will pass before June 25. It will then go to the House, and a motion to concur will be defeated. A conference committee will then be named by each branch, and probably by July 8 or 10 a bill will be agreed upon. This will be at once passed by both houses and an adjournment will then take place. The Silver Republican Senators will not oppose the bill. It is not probable that their votes will be needed, but I believe all of them will vote for it rather than have it defeated. As it is, they probably will not vote at all. The Republican party is purely responsible for the bill, and we are anxious to have it pass, in order to demonstrate that it is not the tariff that is affecting the country. The people will then realize the truth."

Insurance Agents and Underwriters. Insurance Agents and Underwriters.

STOCKTON, June 7.—As a result of the local insurance agents refusal to sign the "agents' agreement," thereby pledging themselves to accept 15 per cent. commission instead of 20, the Pacific underwriters have notified the agents that unless the agreement is signed before June 10, their authority as agents will be regcinded. The agents are up in arms and will hold a meeting before replying to the underwriters.

Studying Educational Systems.

SAN FRANCISCO, June 7.—Among the passengers on the steamer Coptic from the Orient was Dr. Eduardo Wilde, ex-Minister of Justice and ex-Minister of the Interior of the Argentine government. As one of the faculty of the Buenos Ayres University he is now making a tour of the world, studying the systems of education in vogue in all civilized countries. From here will go East, and will spend some time in America before returning home.

Natural History by the Sea Natural History by the Sea.

PACIFIC GROVE, June 7.—Stanford University summer school of natural history opened its sixth session in the Hopkins Seaside Laboratory today. Exceptionally interesting work is contemplated. George C. Price, professor of botany, both of Stanford, and Harold Heath, professor of zoölogy; University of Pennsylvania, are the instructors. The session continues for six weeks.

A Young Architect Missing.

SAN FRANCISCO, June 7.—Otto d'Erlach, a young architect, is believed to have been drowned yesterday afternoon off Point Bonita, on the northernside of the Golden Gate. He was with a party of friends, and was last seen when trying to find a place on the rocky shore from which to sketch the bay. The Fort Point life-saving crew was notified of his disappearance, and found his hat floating in the bay.

ANTIOCH, June 7.—A man about 36 years old attempted to assault two farmers' wives between here and Brentwood last Thursday while their husbands were away. He choked one woman and beat her, but was frightened away before he accomplished his object. Officers are scouring the country for the fellow, and are said to have him cornered on the Basco grant.

Will Get a Golden Key.

SONORA, June 7.—The Grand Parlor, N.D.G.W., meets here tomorrow. One of the pleasing incidents of the session will be the presentation of a golden key to Mrs. Mary E. Tillman of San Francisco, the retiring grand president. This gift is from the local parlor, is of solid gold and weighs nine ounces. The gold was donated by the mine owners of Calaveras county.

One-sixth of all the people who die, die of consumption. Consumption doesn't come all at once. It is insidious. The seeds of it are seemingly insignificant. Most people do not know how it starts. Thorsands of people are on the road to consumption and don't know it. Whenever there is loss of flesh—paleness—wasting away—look out. Consumption easily finds a foot-hold in a weakened body. Low vitality, impure or poor blood, imperfect digestion, nervousness, aleeplessness—all these lead to consumption.

His Pistol Killed Him.

PENDLETON (Or.,) June 7.—News of the peculiar death of Jefferson Carley, a wealthy sheep-owner of Grant county, was received today. Carley was carrying a bucket of water, and his pistol dropped out of his belt. Striking the water bucket, it was discharged, the bullet passing through Carley's body, producing a wound which caused his death in a few hours.

PORT TOWNSEND (Wash.,) June 7.

—It is now definitely settled that the seat of Puget Sound University is to be moved from Tacoma to Port Townsend. The university was founded at Tacoma in 1888, and has since been one of the State's leading educational institutions, being under supervision and management of the Methodist Episcopal Church of this district.

SOMEBODY SHOUTED.

COLUMBUS (O.,) June 7.—Capt.
Leonard of the Urbana military company is here as the guest of the State at the Neill House until he can return home. Citizens of Urbana have telephoned him to come home, assuring him safety. He left the jail in a buggy, and was recognized, when somebody shouted "Hang him!" The horse was put to full speed.

KEEPING OUT OF SIGHT.

KEPING OUT OF SIGHT.

URBANA (O.,) June 7.—Sheriff Mc-Lain reached home from Springfield this afternoon. He was met at the depot by Deputy Sheriff Kirby in a cab, and was hurried off to his mother's home. Mayor Ganson wrote a card today. In it he condemns mobs. He says that all was done by the Sheriff to save Mitchell that could have been done, and that if more force had been used men, women and children would have been killed.

Capt. Leonard was in Cincinnati incognito Saturday and Sunday. He said to Col. Hunt, his Cincinnati host: "My business is ruined and my family broken up. I do not think I shall ever go back to Urbana. I dream of terrible occurrences and awake with a start at night, with the din of that howling mob in my ears. I hear that the father of Bell who was killed, has threatened to shoot me on sight. I am going to leave the city, but my whereabouts will be kept a secret."

The feeling here has subsided very much. A very strong reaction has set in, and the best public opinion tonlight KEEPING OUT OF SIGHT.

SOMEBODY SHOUTED.

Might be Saved Each Year from the Horrors of Bright's Disease if the Condition of the Kidneys was Detected in time.

The English and German Expert Specialists, who are regarded as the best authority on all scientific points relating to chronic disease, have repeatedly warned the public regarding this most insidious disease. They have published timely hints and early symptoms, so that the public might be forearmed and forewarned against this most destructive of all

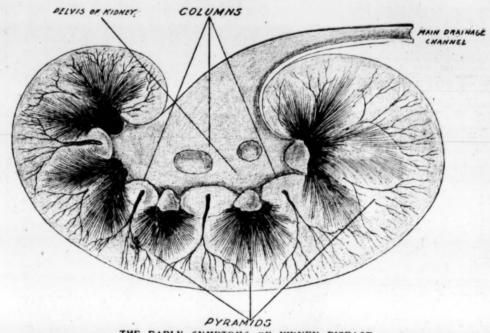

Who is to Blame?

Owing to the expensive instruments and microscopes necessary to a correct examination of the urine, and the expert skill and training that physicians must have for this special work, the victims of kidney disease have increased from year to year. This alarming condition is due to the fact that few medical men are trained in the special work of urinary analysis and microscopic examination—and fewer still can afford the expensive equipment.

The English and German Expert Specialists have the most complete and scientific laboratory for chemical and microscopic examinations to be found in the west and their remarkable success in treating kidney as well as other chronic diseases is due to this superior equipment.

"Forewarned and Forearmed"

Look Out for Your Kidneys,

THE EARLY SYMPTOMS OF KIDNEY DISEASE.

The earliest symptoms of kidney trouble are to be found only in the urine itself and the lact explains how diseases of the kidneys can go on without attracting the attention of the victim until the disease is fully developed and the later and graver symptoms appear. The quantity of urine in 24 hours should be about 50 ounces. This will vary with drink and exercise. The edor of urine should be without character or definition. The color of urine should be a pale straw or amber hue. Fevers, bile, foods and diminished flow darken the urine are the first visible symptoms of kidney trouble, and should be a warning to us all. Don't hesitate at this critical time, but bring a sample of it to the English and German Expert Specialists and learn the truth about your condition. Increased quantity of urine should also warn you of danger threatening your kidneys. Pain over the region of the kidneys and in the "small of the back," with dull heavy pains down the spine are early symptoms of kidney trouble. The brick dust sediment, when found in the urine is a grave symptom and calls for immediate relief, or the kidney will soon be beyond repair.

Fifty per cent. of all people reaching the age of 50 years have kidney disease in some form.

It developed that Sheriff McLain did not have telephonic communication with the Governor on Friday night as had been reported. Capt. Leonard stated that at the time the Governor spoke over the telephone, as the Governor believed, to the Sheriff, the latter was in the jail and had no means of getting to a telephone. It is believed that some officious person representing himself to be the Sheriff communicated with the Governor and that the real facts were not made known, the idea being to convey a false impression to the Governor. The fact that Sheriff McLain telegraphed for troops is not denied, but the previous misinformation regarding the situation telegraphed to the Governor misled him of judging of the necessities of the occasion when the formal call for troops was made. The Governor will investigate the matter thoroughly.

The Governor has received assurance that it will be perfectly safe for the ments of Col. Anthony of the Third

"DR." G. HAMILTON GRIFFIN. The Dry, Sparkling Champagne

(Pittsburgh Dispatch:) Dr. G. Hamilton Griffin, "B.A., M.D.," and former president of eighteen companies having an alleged capital of \$40,000,000, who disappeared from New York some time ago, is reported to be in Pittsburgh. He has been seen by friends, has been negotiating with large Pittsburgh. negotiating with large Pittsburgh firms, and is quietly living at a private horms, and is quietly living at a private boarding-house on Penn avenue, with his beautiful wife and child.

It is claimed by those who know the promoter that he has outdone Mulberry Sellers, and during his existence in

Sellers, and during his existence in New York was at the head of eighteen companies capitalized at enormous New York was at the head of eighteen companies capitalized at enormous sums. It is alleged that Griffin disappeared from Wall street recently, leaving his pathway strewn with debts, and was a confessed swindler, forger and criminal. It is claimed that, while he had handled deals involving millions, he left office boys, stenographers, landlady and friends as victims.

Of Griffin's operations in New York the Journal says: "In organizing these companies his plan was in each case to induce, by his show of pretended personal wealth, and the free but unwarranted use of the names of people

of standing with whom he had come in contact, to induce investors to lend their names to the organization of the concerns which he had on foot. In this way he secured the cooperation of many people of unquestionable standing and keen business acumen. Out of some of the corporations which he formed, companies that are perfectly sound and solvent have grown owing to the fact that those with whom he was associated were too zealous of their business standing to allow Griffin to remain with and wreck the corporations."

remain with and wreck the corporations."

The same paper claims that Griffin left many victims in various parts of the East, and that he disappeared frem Gotham after acknowledging "that he had been a criminal, a forger and a swindler, but declared that he had since that time reformed. They decided to give him the chance which he begged for and allowed him to escape."

A New Yorker, who is in Pittsburgh for a metropolitan publication house, said last night at the Lincoln Hotel that he knew Griffin well and that about three weeks ago he met him in the reception-room of the Carnegle Steel Company, where Griffin was waiting to meet President C. M. Schwab. "At that time," said the gentleman, "I talked with him for a short while, and he told me that he intended purchasing two locomotives for his coal mining company through Mr. Schwab from the Pittsburgh Locomotive Works. I warned W. C. Magee of the H. C. Frick Coke Company, to be careful of any transactions and advised them to get cash and not checks for anything they purchased for Griffin.

"I met Griffin afterward, and he told me he had secured two 60-ton locomotives at \$7000 apiece, and that as his company expected to pay \$3000 apiece, he would make \$2000 on the transaction. Griffin then told me he was boarding on Penn avenue, and he has been in the Carnegie offices almost daily, I am told. I saw him this morning and he was very much perturbed about something. He complained of being sick and I advised him to go South.

"Griffin is a heavy man, always wearing dark blue broadcloth clothes, clean polished boots, black slik hat and gloves, gold-rimmed spectacles, spotless linen and a diamond pin. A boutonniere always adorns his lapel, and he is highly perfumed. I don't know what he intends doing in Pittsburgh, but know of much that he has done in New York.'

Prospecting work is being done at the Zigler mine, situated on the hill between the Gold Cliff and the Utlea mines, with results very encouraging to the owners, Meyers & Carlow. It was first worked in 1860 and a hole about thirty feet deep sunk on the chute, when it was abandoned and lay idle until 1880, when it was relocated. The recent developments show a large body of ore, all highly mineral.

A Unique Volume.

A remarkable book of 50,000 words, which has never been on a printing press, has just been bound by D. Ap-pleton & Co. Each letter and word have been made by the author's pen so delicately and skillfully that the pages look like the best copper plate engrav-ing. Lieut.-Col. Noble D. Preston is the author and maker of this introcat-ing volume, the title of which is "Pros-ton's Pen Pictures, Medals, Sangs and Sketches, Medals of Honor, Loyal Legion, Biographies, Bugle Blasts, Fam-

ily Genealogies, etc."

The work has consumed Col. Preston's leisure hours for the past eight years, and was done with a very fine pointed pen. It is such a work as might have taken a monk a lifetime in the dark ages, before the art of printing was known. The letter at the beginning of each chapter is hand-somely illuminated, after the ancient

somely lituminated, after the ancient fashion, and there is elaborate scroll and margin work on some of the pages. Under the heading of preface the author says:

"I made this novel volume with pen and ink for my children by 'special request.' It possesses no literary merit and little of any other. The edition is limited to one volume, and is not copy-

A Ficet of Oil Carriers.

[Oil City Derrick:] What is said to be the largest fleet of oil carriers that ever left a port in the United States on a single day, will sail from Philadelphia next Saturday, bound for different parts of the world with full cargoes of crude and refined petroleum. The steamers to sail are the German steamships Paula and Wilkommen, the British steamers Weehawken, Phosphor and Delaware. The ships are the St. Enoch and the Whinlatter, and the barks Alice and Isabelle. The steamers are all for English and continental ports, while the sailing vessels A Fleet of Oil Carriers. steamers are all for English and con-tinental ports, while the sailing vessels are going to the far East. Their com-bined cargoes aggregate 7.500,000 gallons of petroleum in bulk, cases and bar-rels. The oil shipments for the past-week at Philadelphia aggregate over 13,000,000 gallons.

New Journalism in France.

(Springfield Republican:) Sensational journalism in America is completely distanced by the great "stroke of enterprise" displayed by the Petit Journal of Paris, which capped the climax of its work in reporting the terrible bazaar fire recently, by publishing an illustrated supplement printed in colors reproducing every conceivable phase illustrated supplement printed in colors reproducing every concelvable phase and notable incident of the tragedy. The preliminary announcement of this hideous edition concluded by drawing special attention to one whole page "very startling," and devoted to a grand picture of "Les Cadavres Retires des Decombres," (The corpses taken from the ruins.) The Petit Journal has a circulation of 1,000,000 a day, and no doubt the edition "en couleurs" far surpassed that mark.

To Lead the Blind.

To Lead the Blind.

The most interesting announcement in connection with the New York public library, which is to be erected at a cost of over \$2,500,000, is that Miss Helen Keller, the wonderful blind deaf mute, may be placed in charge of the department for the blind. Miss Keller, now 17 years old, has had a remarkable career. With only the sense of touch as a means of communication with the outer world, she has acquired an education and general knowledge of affairs that would do credit to a graduate student twice her age. The department for the blind in the library will accommodate twenty readers, and while it has not definitely been decided to place Miss Keller in charge of it, she is regarded by the trustees as best fitted for the position.

[SPECIAL CORRESPONDENCE OF THE TIMES.] SIOUX CITY (Iowa,) June 7.—Before snow flies, so says Donald McLean, financier and railroad promoter, work will be under way on a new railway between Sioux City and the Pacific Coast. The system will be 952 miles long and is divided into five sections, each under the management of a separ-ate company. Substantially the same incorporators appear in each, however and all will be under a single general management and capital, as the con-struction of the various lines will come from a single source. It was originally intended to make San Francisco the western terminus of the line, across the ledge.

The Granite Mountain Gold Mining Company will start work Monday on a fifty-foot tunnel on their property in the Silverton district. They have three claims, 16 to 1, and Mary L. being on an extension of the 45 lead, while the Linwood is a parallel ledge.

Assayer Braden says that the silver mining industry in Montana is steadily decreasing in importance, and he might have truthfully added: So is the "silver Republican" industry; it will never again produce such a crop as was as the Silver Control of the western Nebraska border, as the Silvex City and Western; as the Silvex City of South Sloux City of South Sloux City of South Sloux City with the shope and Los Angeles whether Sloux City of South Sloux City of South Sloux City will be the eastern terminus. The two are separated only by the Missouri River, and in either case headquarters for everything but the shope and yellow th

The work of organization has been conducted entirely by McLean, an old-time railroad venturer in this section. His operations have been carried on very much in the dark, and, except that the line will surely be built and that the capital will come from England, the public has been able to gafn but little information from him. Among local business men much doubt is ex-

Central or the Great Northern road is furnishing the sinews of war.

Whoever be at the bottom of the scheme the road is assured, unless present indications are very deceptive. The right-of-way has been secured for the entire route; arrangements have been made to use the surveys of abandoned lines a part of the distance, and parties have already been for some time in the field mapping out the balance of the route. Within two weeks, McLean declares, representatives of the New York company having in hand the work of construction will be in Sioux City, and active operations will be commenced this summer.

In addition to his English friends—if he has them—McLean is known to have interviewed and has probably enlisted the cooperation of capitalists from Sloux City, Los Angeles, San Francisco, New York, Kansas City, Salt Lake City, St. Louis and South Sloux City, Dakota City, Norfolk, Randolph and Wymore, Neb.

Matters might have been facilitated by the purchase of the Pacific Short Line, whose road the new company proposes to parallel between the Missouri River and O'Neill, Neb. It was thought for a time the transaction could be arranged, but the deal has fallen through. The line is in the hands of a receiver, and at least two years must elapse before it can be formally transferred to the new company. The backers of the enterprise do not wish to wait so long. In addition to this a price of 31,800,000 is placed on it by the court, with an additional \$1,000,000 for the Short Line will cost only \$1,200,000.

In furtherance of this undertaking he has invited suggestions from leading bankers, merchants and financial experts throughout the country. Secretary Gage's plan, as outlined in a general way, contemplates the gradual retirement of the greenbacks and the substitution therefor of national bank notes, which it is proposed to allow the banks to issue up to the par limit of their deposit of government bonds or other securities as the basis of their circulation; the tax on national bank circulation to be reduced from 1 per cent. to one-fourth of 1 per cent.; and the issue of bank notes and all other forms of paper money to be restricted to denominations of not less than \$10. A provision authorizing branch banks in communities where the business is not sufficient to warrant the maintenance of a national bank is suggested; also that State and municipal bends may be used as a basis for bank circulation up to, but not exceeding, 50

per cent, of such circulation. The outlook for the enactment of financial legislation of any kind by the present Congress, it must be confessed, is not auspicious. While a posed by Secretary Gage would probably pass the House without serious opposition, it would stir up a regular hornets' nest in the Senate. The proposition to retire the greenbacks would invoke a deluge of eloquence from Messrs. Stewart, Jones Teller and other Senators of the silverite faith There is no real question as to the need of legislation to mitigate the evils of the present currency system. The existing status of the legaltenders, or greenbacks, is especially unsatisfactory. The "endless chain" combination, by which these paper representatives of money may be used over and over to deplete the treasury's stock of gold, is fraught with infinite possibilities of mischief. But honest men honestly differ as to the best and wisest solution of the problem. The proposition to replace the greenbacks with national-bank notes is sure to meet with the most stubborn opposition, and it is doubtful if such a plan could in any contingency pass the Senate.

The plan to limit the issues of paper money of all kinds to denominations of not less than \$10 has often been suggested, and would probably meet with a favorable reception in both branches of Congress. Silverites could not consistently oppose it, and it would not be likely to encounter very strong opposition from any other source. The of gore. NEW PARTICULARS CONCERNING THE TIRASPOL HORRORS.

Makaveyeva, Otherwise Sister Vitalia, Responsible for Much of the Fanaticism-Persuaded Simple Russians Against the Census-

[BY ASSOCIATED PRESS WIRE.] LONDON, June 7.—[By Atlantic Ca-ble.] The Dally News recently sent a special correspondent to investigate the circumstances of the dreadful immur-

ing tragedy near Tiraspol, Southern Russia, where the police recently discovered the bodies of several persons, members of the fanatical sect known as the Raskol Niki, who had been walled up alive by Feodor Kovaloff that they might secure salvation by self-impolarapid succession that the effect is as of moving reality.

The first, sixth, tenth and fourteenth rounds of the great Carson fight were thrown upon the canvas. The movements of the puglists were reproduced at a slower speed than that of reality. The effect was to enable spectators to follow and analyze the blows and passes, as it would be impossible for the eyes of any but an expert when watching an actual fight. The pictures were at times rather blurred, night secure salvation by self-immola-tion. In his first letter, which is pub-

"The Emperor Nicholas is taking a strong personal interest in this extraordinary affair. I have not as yet visited the actual scene at Ternofka, but here (Tiraspol) I learn that Kovaloff, the executioner in this tragedy, is quite convinced of the sanctity of his act, and awaits his fate with the utmost indifference. It is probable, however, that he will not be tried, but will be confined in a monastery as a madman, though there is no evidence of insanity. "One of the chief figures largely in-

strumental in this whole terrible drama was a middle-class, well-educated spinster, Vera Makaveyeva, who, as Sister Vitalia, was a sort of priestess of this fanatical sect. She was of commanding figure, with wonderfully lustrous and expressive eyes, an attractive and persuasive eloquence, and an absolute influence over her followers.

"Last year she predicted the final cataclysm of a misgoverned world. When the census was taken she persuaded the sect that if was ordained that she should take the roll-call of those who were to be summoned to the judgment-seat. All went to prison for their refusal to give the census particulars. In jail they refused to eat, and they were not liberated until they were almost dead.

Riverside drive, in New York, alive with passing equipages and whizzing bicycle riders; the fire engines, dashing down the long vista of a street, growing larger and larger as they approached, until they seemed about to hurl themselves into the auditorium of the theater, and an express train at full speed.

The exhibition of the pictures of the fight was the last thing on the programme. The magniscope display was preceded by the presentation of a three-act farce-comedy, "A Wife Wanted," by the Buckman-Keogh Company. The play was an artificial creation, with its action laid in that land of unrealities where the old and foolish woman marries the young and dissipated man, and where separated couples and fortune-hunters and knowing old bachelors are tangled in strange complications, and make merry for the spectator withto sacrince nerself and her children. In pursuance of this plan, he has sent out a letter to two hundred leading bankers and merchants inviting suggestion for placing the currency apon a sound basis.

In outline, the scheme will cause the

gradual retirement of the greenbacks and the substitution of national bank notes therefor, allowing national banks to issue to the ful limit, instead of 90 per cent. as now; reducing the tax on national bank circulation from 2 per cent. to one-fourth of 1 per cent., and limiting the denominations of bank notes and all other paper money to \$10, and substituting silver for all below \$10. There will be probably a provision for branch banks, and there is a sugrestion that State and municipal gestion that State and municipal bonds may be used as a basis for not to exceed 50 per cent. of the note circulation. THE DEATH OF RUIZ. Alleged Report of Gen. Lee and Its

[BY ASSOCIATED PRESS WIRE.] NEW YORK, June 8.—The Journal this morning publishes the full text of Consul-General Lee's report on the Ruiz case to Secretary Sherman. It is dated Havana, May 31, and says in part:

"I deduce from my knowledge of the facts the following conclusions:

"First—Dr. Ruiz was arrested on a false charge.

"Second—He was placed under an improper jurisdiction and died before the proper tribunal considered his case thereby giving him no opportunity to prove his innocence.

"Third—He was kept incommunicado in a solitary cell for 351 hours, in violation of his treaty rights, which limit such confinement to seventy-two hours.

"Fourth—He died from congestion of the brain, produced by a blow on the top of the head.

"Fifth—There are two theories connected with the wound on the head. One is that, in a state of mental excitement, he ran across the cell, described by one of the jailers, and butted his head on the door in a frantic effort to get out. Another, that he was struck over the head with one of the clubs carried by the jailers, by the immediate watchman, who had probably ordered him to cease his cries for relief and for his children, and upon his not doing so, struck him with more force than he intended; or it is possible the blow was delivered to make him confess or give evidence against others.

"It is possible he went mad, and

"It is possible he went mad, and "It is possible he went mad, and many causes combined to produce such a result—his knowledge of his own innocence: his confinement in a gloomy cell, where he was not allowed to communicate with his family or friends, or to send or write. Alone, all alone, the thought doubtless impressed itself upon his mind that he was liable in the reign of terror then existing in and around Gusnabacca, to be summarily executed at any moment. He loved his wife and children, and in the darkness and loneliness of his cell he was constantly crying out for them.

distracted and unhappy man. I thought it not improbable that, as the long hours passed by, it may have given way and left him a madman. His wife says his derby hat was all battered up and his clothes greatly torn when he returned to her.

"But whether, when bereft of reason, he inflicted the blows which produced brain congestion or whether he died at the hands of others, the truth will probably only be known when the hearts of all are revealed. The facts remain that his unjust confinement killed him, and had he been released from incommunicado by the hand of man at the end of seventy-two hours, the hand of death might not have released him at the end of 351 hours, and today the widow would have had the support of her husband and the moans of his fatherless children would never have been heard in the land.

"I therefore conclude, saying as I have done in all previous reports about this case, that whether Dr. Ruiz killed himself or was killed by someone else, will, under existing conditions, always remain unknown."

THE HEKLA COLLISION. Her Officers Claim the Mississippi Was at Fault.

Was at Fault.

[BY ASSOCIATED PRESS WIRE.]

CHRISTIANA, June 7.—[By Atlantic Cable.] The Thingvalla-line steamer Hekla, which was in collision on May 27 with Atlantic Transport-line steamer Mississippi, arrived here yesterday. At the time of the collision there were 400 passengers on the deck. The Hekla was going at reduced speed through a dense fog and signalling uninterruptedly.

dense fog and signalling uninterruptedly.

Suddenly the Mississippi was seen bearing straight down upon the Hekla's how. The Hekla immediately reversed her engines, but too late to avoid a collision. The shock was terrific. The passengers were thrown into a state of panic, women and children ran wildly screaming about the decks. It was soon discovered, however, that the damage was all above the water-line, and temporary repairs were speedily effected, and the vessel pushed on to her destination. The Hekla's officers maintain that the Mississippi was responsible for the collision. They allege that she did not reduce her speed, nor did they hear the fog signals.

ALL ALONG THE LINE.

The connection of Elsinore in San Diego county with the outside world by means of long-distance telephone lines only serves as a straw to show which way the breeze of general progress is blowing in Southern California.

Southern California is still in evidence abroad. The horse Americus, which won the Riddlesdom Plate of \$1000 at Epsom in England, last Friday. was bred by E. J. Baldwin at Sants Anita in this county and formerly raced under the name of Rey de las Carreras. He is now under a lease to Richard Croker, the former sachem of Tam-

That is a gruesome story that comes from Anaheim, about the violation of the grave of a young man named Virgil Smith, who was buried at that place twenty years ago. house at Anaheim shows that the old town, which has been so often called "Sleepy Hollow," has gotten a move on itself. There is a great deal of solid wealth in Anaheim, which was settled by a lot of conservative Germans about forty years ago under the leadership of John Frohling, a flute and clarined player. The Pasadena News sounds a keynote when it says "settle up the back country." It's the back country that makes the State, sure enough. One great trouble with half the people on this Coast is that they want to live either in Portland, San Francisco or Los Ange-les. The men who have thrift enough become rich while living in a city are few and far between. The theater and other places of amusement take off a little from each day's earnings and leave nothing to show at the end of a hard year's work. The man who goes into the country, if he have business capacity and thrift, stands by far the

Speaking of coffee importations into California, Messrs. Newmark Bros. gave some figures yesterday which are of more than ordinary interest from the fact that one of the amendments to the Tariff Bill now under discussion in

on coffee.

"Our Total importations of green coffee into California," said Mr. Newmark,
"are about one hundred and thirty-five thousand bags a year. A beg thousand bags a year. A bag runs from 135 to 160 pounds in weight. Tak-ing the average at 150 pounds a bag, the quantity of green coffee landed at San Francisco, for it is all sent to that port, is, therefore, about twenty million two hundred and fifty thousand pounds a

is, therefore, about twenty million two hundred and fifty thousand pounds a year.

"In addition to that there comes from the Eastern States, in the manufactured form, the equivalent of 65,000 bags a year, or, say, 9,700,000 pounds. Adding those two quantities together you have a little over thirty million pounds of coffee annually required by the people of the Pacific Coast. The total quantity of coffee imported into the United States during the year ended June 30, 1896, was 4.147,226 bags, equal to about six hundred and twenty-two million pounds. Taking the population of the entire country at 70,000,000, you will see that the average yearly consumption of coffee on the Pacific Coast is geater than it is east of the Rocky Mountains. Some of our eastern ground coffee manufacturers are very heavy importers. Arbuckle Bros. are among the heaviest, their coffee importations running up sometimes as high as 50,000 bags a week. The Arbuckles are now the heaviest objects of Aden Mocha and Java, is as fine a coffee which, excepting the higher grades of Aden Mocha and Java, is as fine a coffee were better known it would be highly appreciated and better liked than much of the coffee now used."

"If that is the case," asked the reporter, "why don't you get more of it, that is, import more of it direct to California?"

"Because," he replied, "we cannot get to the coffee now used."

that is, import more of it direct to California?"

"Because," he replied, "we cannot get it. The production of Mexican coffee is comparatively small and what is exported goes nearly all to New York and other Atlantic Coast ports. Then besides that we have so little direct trade with Mexico on the Pacific Coast that the matter has never been given much consideration. So far as we in Los Angeles are concerned we cannot do anything; our hands are tied and will remain aled until we have a harbor at San Pedro permitting us to open up direct trade between Los Angeles and Mexico. We will have that harbor some day, I suppose, but it seems to be getting here slower than molasses spurts on a cold day."

PLAZA CHURCH.

Opening Night - Change of Pro gramme Each Day-The Booths and Their Attendants - Spanish and Chicken Dinners.

The June festival to raise funds for the liquidation of the debt on the old Mission Church in the Plaza, opened at Turnverein Hall last evening, with a good attendance. The affair, which is under the auspices of the ladies of the church, will continue through the week, a Spanish luncheon being served each day from 11 to 2 o'clock, and a cold supper from 5 to 7 o'clock. A dif-ferent programme will be rendered each

vening.

The programme last evening included The programme last evening included selections by Prof. Gardner's Orchestra, solo and chorus by Eugene Roth and members of the church choir, cornet solo by G. A. Hancock, bass solo by Mr. Roth, guitar duet by Miss Maud Priest and M. S. Arevalo, vocal duet by the Misses Frances Martinez and Antoinette Ballade, violin and plano duet by Mrs. Heller and Prof. Gardner, and chorus by members of piano duet by Mrs. Heller and Prof. Gardner, and chorus by members of the choir. Miss Theresa Sullivan assisted as planiste, and M. S. Arevalo as musical director. The members of the choir were: Frances Martinez, Frances Pedrorena, Antoinette Ballade, Audencia Bouchette, Mary Ballade, Carrie Pedrorena, Eduard Naud, Madaline Guitau, Miss Sepulveda, Narcisese Sentous, Elvira Winston, Mrs. Larieux, Emile Bernard and Alphonse Gabriel.

Bishop Montgomery made a brief address, welcoming the audience, stating the object of the fair, and speaking warmly of the generosity of the people

of Los Angeles. The programme this evening will in

clude orchestral numbers, selections by Bishop's Male Quartette and violin solos. Wednesday evening the Mexican band will have charge of the programme, and Thursday evening will be devoted to the Spanish troubadours. The hali is lined on either side with gaylv-decorated booths, presided over by pretty girls in dainty gowns, and presents a most attractive appearance. At the Turkish booth, where cigars, cigarettes and black coffee may be found, in addition to a collection of fancy articles, Mrs. George Mitchell and the Misses Kate and Anna Clarke are in charge, assisted by Mrs. George Lewis, the Misses Virginia Donato, Maggie Daly, Maggie and Leone McCann and Mary Harnett.

The Monte Carlo booth is under the direction of Mrs, Juan Forster, assisted by the Misses Rowland, the Misses Rose Miller, Castyle, Arata, O'Brien, N. del Valle and Winston.

The "nickel stand," which is one of the pretitest booths in the hali, is artistically decorated with peanut portieres, bamboo grill-work, Japanese lanterns and crimson draperies. Here peanuts are dispensed by the Misses Wolfskill, Miss Banning, and Miss Susie Barnard:

FOURTH OF JULY.

A petition was received from the Executive Committee of the Fourth of July celebration asking that the Council make an appropriation of \$1000 to aid the cause. It was thought best to refer the matter to the Finance Committee to report at the afternoon session of the Council, but an audience was granted to J. W. Phillips to appear on behalf of the Executive Committee. He assured the Council that the demonstration was to be absolutely non-partisan, and that Bryan's coming had no bearing on the matter. The whole affair was to be conducted in the purest spirit of broad Americanism. The report of the Sewer Committee was approved.

The report of the Board of Public Works was approved, including a recommendation in favor of repaving Spring street from Temple to Ninth street. The necessary ordinance will be adopted next week.

MOTIONS AND PETITIONS. On motion of Councilman Toll, the City Tax and License Collector was instructed not to proceed to the sal instructed not to proceed to the sale of any property on the delinquent tax list of the city for the year 1896-97, whereon the taxes amount to \$300 or more, exclusive of costs and penalties, and to make out and deliver to the Council a certified copy of the entries upon the delinquent list relative to such tax. In each case, whereon the taxes.

Council a certified copy of the entries upon the delinquent list relative to such tax, in each case whereon the taxes, exclusive of penalties and costs, amount to \$300 or more.

It was explained that under the law governing the collection of city taxes, suit could be brought in all cases where the taxes on one piece of property amounted to \$300 or more. It had been said that the law was unconstitutional, and the amount of delinquent taxes had grown from less than \$10,000 last year to about \$22,000 this year, because this belief seemed to be gaining ground. Councilman Toll thought it well to have the law tested in the courts at once, instead of allowing five years to elapse, as provided in the case of property sold to the city where an equiy of redemption remained.

A motion was also passed, ordering all petitions and communications to the Council to be typewritten.

A petition was received from I. W. Van Nuys asking that an alley be opened from Fourth to Fifth street, between Main and Spring streets. A large number of petitions were received and referred to the proper committees.

On motion of Councilman Ashman

On motion of Councilman Ashman the Main Street Railway Company was notified to abate the noise of its cars, which is caused by the flanges of the wheels running on granite blocks next the rails.

CITY ENGINEER'S REPORT. The following report of the City Engineer was adopted:

In order to oblige the Executive Committee of the Fourth of July celebration, which was in the lobby, the following report of the Finance Committee was called up and adopted: tee was called up and adopted:

"Your Finance Committee, to whom was referred the application of the Fourth of July Celebration Committee requesting an appropriation of \$2500 for the purpose of making a fitting celebration on the coming Fourth of July, beg leave to report that owing to the present condition of the city finances, we cannot consistently recommend the appropriation of a larger sum for this purpose at this time than \$1000. We would therefore recommend that an appropriation of \$1000 be made to the Fourth of July Celebration Committee for the purpose of assisting in the

propriation of \$1000 be made to the Fourth of July Celebration Committee for the purpose of assisting in the coming celebration."

This money will probably not be available until after July 1.

A representative of the protesting property-owners appeared and stated that, if the width of the alley from Sixth to Seventh street were made sixteen feet from end to end, instead of twelve feet wide at Sixth street and twenty feet at Seventh street, there would be no further opposition. F. G. Finlayson represented the case of the original petitioners and gave reasons why no change should be made in the proceedings and no further postponement be granted. The matter had already been dragging for twelve months since the petition was presented. A number of property-owners were heard in the matter and it was laid over finally for one week.

Three reports were received from Oil
Inspector Morlux, who stated that 167
violations of the oil ordinances had
come to his knowledge. These cases
were referred to the City Attorney.
The following report was received
from the Sewer Committee and was
adopted:
"Your Sewer Committee, to whom
was referred the application of I. W.
Hellman for permission to connect his
property on the south side of Fourth

The final ordinance ordering the school bond election will probably be presented to the Council next Monday. There will be only nine voting pre-cincts, one for each ward.

DAVIS HELD TO ANSWER.

IAT THE COURT HOUSE.

EXAMINED BEFORE JUSTICE YOUNG ON A FORGERY CHARGE.

Was Acting as Ware's Agent in the Transaction and That Ware Got the Money.

A. E. Davis, the accomplice of W.
M. Ware in defrauding the Columbia.
Savings Bank of \$1000, was examined
yesterday afternoon before Justice
Young on a charge of forgery, and
was held to answer in the Superior

Court with the bond fixed at \$2500. Nothing new developed in the examination except the fact that Davis, while in the City Jall, had confessed to the bank officials that he was merely acting as Ware's agent in the matter, and that he had received \$250 as com-mission. Ware carrying off the lion's share of \$750 out of the \$1000 which the pair succeeded in extracting from

the bank.

Ware, who thus appears as the principal in this transaction, is at present reposing in the City Jail after his exciting experience at Long Beach as a fake suicide. The two men are charged with complicity in the crime of forging the name of L. H. Green to a deed purporting to convey to Davis to 1.1 in the Daly tract. This lot was worth \$2500, and was the property of Mr. Green, who is now living in Cincinnati, O. The deed and indenture shown by Davis declared that Mr. Green was a resident of Los Angeles. The deed was sworn to before P. E. King, a notary, and was witnessed by R. B. Williams and M. P. Brown, It is charged that this fraudulent transfer of the property from Green to Davis It is charged that this fraudulent transfer of the property from Green to Davis was made for the sole purpose of nescritating a loan at the Columbia Savings Bank. So far, the fraud succeeded. The bank officials were satisfied that the deed was valid, and made no difficulty in handing over to Davis \$1000 in gold coin. Some irregularity afterward aroused their suspicions, and an investigation proved the fraudulent nature of the deed, and ended in the arrest of both Ware and Davis.

ing Company's buildings.
Gibbons admitted that the license of the saloon was issued in his name; but said that he was not liable for the bill, as the business was owned and conducted by C. A. Culp. Culp's testimony was to the same effect. After the trial Gibbons was asked if he procured the license because of the judgments outstanding against Culp, and he said that was not the reason. He said the reason he did get the license was because he had more influence than Culp, who might not have been able to procure one. SPRING STREET.

THE QUESTION OF RESURFACING IT UNDER CONSIDERATION.

The Merchants' and Manufacturers' Association Seeks to Know Whether the Wire Companies are Willing to Co-operate with

The Merchants' and Manufacturers Association held a meeting last night in its rooms in the Wilcox building for the purpose of considering the proposed resurfacing of Spring street and the relationship which the telegraph, telephone and electric companies bear thereto. Representatives from the Sunset Telephone Company, the West Side Lighting Company and the Home Side Lighting Company and the Home Telephone Company were present. President H. W. Frank stated that the representatives of the several telegraph, telephone and electric companies had been invited to be present in order that their views might be obtained as to what action they would take in laying down a common conduit for their wires before resurfacing took place. He pointed out that a city ordinance, lately passed, provided that all telegraph, telephone and electric-power wires, other than trolley wires, within the city limits, should be placed underground within one year from the date of such ordinance and that it, therefore, was a matter of interest and importance to all property owners on Spring street to know whether those companies were willing and would be prepared to comply with the terms of the ordinance. He furthey pointed out the advantage it would be, in the matter of expense, for those companies to take advantage of the fact that Spring street was going to be resurfaced, as when the street was torn up for that purpose the comcompanies could put down their conduit at less expense than if they had to dig up the street again and repave and resurface it. He also drew attention to the fact that the Merchant's and Manufacturers' Association felt a direct interest in the matter, because every time a street was torn up it greatly interfered with the merchants doing business on that street.

The chairman then called the secretary of the association to state the views of Spring street property-owners on the proposition of resurfacing. Secretary Knight replied that all upon whom he had called had expressed their approval of it, with but two exceptions. The two exceptions were, he said, the proprietor of the Bryson Block and Mr. Woollacott. The proprietor of the Bryson Block he went on to state, refused to contribute one cent toward resurfacing of Spring street. Mr. Woollacott would be willing to pay his pro rata of expense provided it was Telephone Company were present. President H. W. Frank stated that the

Mr. Woollacott's refusal was, he explained, conditional. He said Mr. Woollacott would be willing to pay his pro rata of expense provided it was clearly understood that the corporate wire companies would comply with the ordinance and place their wires underground before the street was resurfaced.

Chairman Frank then called on the wire men present to say what they were willing to do. Mr. Keyser of the Sunset Telephone Company was the first to respond. He confined his remarks to saying that he had come to hear what was said and obtain the sense of the meeting. Beyond that he refused to go, notwithstanding all the encouragement extended to him by the chairman, to go on talking. Mr. Thaxter of the West Side Lighting Company evinced à more liberal disposition, saying that his company was ready to coperate with the property-owners in respect to placing its wires underground before resurfacing if a conduit could be put in place. A desultory discussion then ensued, which Secretary Knight put a stop to by explaining the immediate object of the meeting, which was to learn if the wire companies would express, through their represent-

SPARAGUS

KIDNEY PILLS

Their Sale in Los Angeles and Vicinity Has Reached Enormous Dimensions.

HUNDREDS OF BOXES SOLD YESTERDAY.

Think of hundreds of boxes of Dr. Hobbs's Sparagus Kidney Pills being sold in Los Angeles in a single day. And this of a medicine that was little heard of in this vicinity a few weeks ago. No amount of advertising could produce such marvelous sales. Those who have used this remedy have received such benefit that they recommend it to their rieads; that together with the open, frank and honest manner of its introduction, is the proper explanation of its success.

It is vitally important to good health, that the kidneys should be in perfect order. Hundreds upon hundreds of the aliments that humanity suffers from originate from the fact that the human purifiers of the blood are not performing their work properly, and, like anything else that is out of order, should be repaired.

If you are a sufferer from backache, rheumatism, gout, general muscular weekness, neuralgia, headache, nervous exhaustion or generally run down, go to your druggist's at once, and make the best investment you ever made in your life for 50 cents. Get a box of Dr. Hobbs's Sparagus Kidney Pills from your druggist, and in a week's time you will have undergone a change for the better that will surprise you.

Greatly Benefited After 14 Years of Suffering.

A reporter called on Mr. E. Coon of No. 320 Straight street, Grand Rapids, Mich., who in reply to his question told the following regarding Dr. Hiobbs's Sparagus Kidney Pills:

'I have suffered for fourteen years with kidney complaint and have been treated for rheumatism by a number of physicians: also taken a large quantity of patent medicines without improvement, in fact I got worse, getting so bad that I have been unable to leave the house for the past two years. I have had such dreadful pains across my back and in my right limb I have been unable to bend my right knee. My hands and feet were swollen to twice their no-mai size and I was compelled to use support to move around. I began to take Dr. Hobbs's Sparagus Kidney Pills six days ago and noticed a marked change at once. As you see, the swelling has disappeared from my hands and feet and the pain has left me entirely. I walked six blocks yesterday without much frouble, a thing I have not been able to do in two years. I believe now I will once again be a well man and can safely say that Dr. Hobbs's Sparagus Kidney Pills are the only remedy that has ever given me satisfaction. I heartily recommend them to all who suffer as I have.

but as none were forthcoming it was

CHICAGO, June 7.—The western roads are already getting by the ears over the arrangements for the Christion Endeavor meeting in San Francisco. It is openly asserted that several of the lines are ignoring the provision that no sleeping-car shall be allowed for parties of less than twended. allowed for parties of less than twen-

allowed for parties of less than twenty-five or for parties where at least twenty-five fares have been paid. Several of the roads, it is said, have agreed in special instances to allow sleeping-cars for parties of fifteen.

The Southern Pacific has notified all of the western roads that it will not be a party to any such arrangement, and that it will demand in all instances the full amount that is coming to it. It will not receive any sleeping-cars carrying less than twenty-five passengers unless it received twenty-five full fares for the people in that car.

OFFICE OF THE TIMES, Los Angeles, June 7, 1897. ABANDONING SILVER. Bolivia is of the latest countries to bring her one of the latest countries to one of the last election, Russia and Japan have abandoned silver, while Costa Rica went over to gold last fall. At this rate of progress, there will soon be few silver countries left.

THAT CORNER IN GOLD. The idea frequently advanced by silver orators that there is a big corner in gold among

that there is a big corner in gold among the great financiers of the world does not bear investigation: According to a cable dispatch re-ceived by the New York Journal of Commerce the amount of gold and sil-

Commerce the amount of gold and silver coin and buillon held by the leading European banks during the second week of April was \$1,406,001,000. In 1896 fhe amount in the corresponding week was \$1,447,649,000.

The gold coin and bullion were held as follows: Bank of England, \$181,990,000; France, \$382,860,000; Germany (gold and silver,) \$214,010,000; Austro-Hungary, \$156,380,000; Netherlands, \$13,155,000; Belgium (gold and silver,) \$21,308,000; Spain, \$42,642,000.

These figures show that the volume of gold in Europe is widely distributed. Under such circumstances, it would be practically an impossibility to work up a "corner."

POISONING FROM CANNED FRUIT. Of late a number of cases have come to the front in which persons have been poisoned from eating canned fruit. The California Fruit-grower has the following remarks on this subject, which should be carefully

this subject, which should be carefully read:

"Open a can of peaches, apricots, cherries or other fruit—for all fruit is acidulous—let it stand for some time and the fruit acids and the tin are ready to do their work of poisoning. A chemical knowledge that tells just how the dangerous compound is created is unnecessary to an avoidance of the peril. The rule to follow is, never make lemonade or other acidulated drinks in a tin bucket, nor allow them to stand in a vessel of tin, and in the case of canned fruits or fish, immediately upon opening the can, turn the contents out upon an earthenware plate, or into a dish made of earthenware or glass.

"Fruits in hermetically sealed cans, if properly prepared, generate no poison. As soon as opened the action of the acid on the tin, with the aid of the atmosphere, begins, and in a short time the result is a deadly poison. This brief treatment of the question should be remembered by every one and its instructions followed. The general press also should aid in disseminating this simple knowledge."

GENERAL BUSINESS TOPICS.

A GLASS FACTORY. There is again talk about establishing a glass factory in Los Angeles, several inquiries on the subject having been received at the Chamber of Commerce from eastern

Chamber of Commerce from eastern people.

In discussing the advisability of establishing a glass factory here, the fact is sometimes lost sight of that about nine years ago good glass for lamp chimneys and other purposes was made in Los Angeles, at a trial run in the southern part of the city, from sand obtained from a bluff near the Buena Vista-street bridge. The collapse of the boom nipped that enterprise in the bud, or Los Angeles would doubtless have had a glass factory in successful operation.

THE NEW MINING LAW. In confirmation of the opinion that the new state mining law is in conflict with the Federal law, and is consequently unconstitutional, attention is called to the fact that in the case of the Original Company vs. the Winthrop Mining Company (80 Cal., 63) decided by our Supreme Court on June 29, 1892, the court held that where the United States law required that \$10 worth of labor shall be performed, or improvements made for each 100 feet along the vein until a patent issues therefor, and that the local regulations of the miners of the district required that the work shall be done every sixty days on the claim, under penalty of forfeiture, that there was a clear conflict between the Federal mining law and the regulations, and it is conceded that the law must prevail.

ADVERTISING THE STATE. Since the State Legislature refused to make an appropriation for the Transmissippi International Exposition at Omaha, it will be necessary for Southern California to do something "on its own hook," as it would never do for this section of the country to be unrepresented at so important a gathering. George W. Parsons, who was appointed by the Governor to represent California at

Parsons, who was appointed by the Governor to represent California at Omaha, and who has taken much interest in this enterprise, has received a letter from the secretary of the exposition. Referring to a conversation had with Judge Groff, who formerly lived in Omaha, and recently appeared before the committee of the exposition, the secretary suggests that an attractive feature of the California exhibit would be a miniature Niagara Falls in wine. Another chance to do some good for California will be at the Transmississippl Commercial Congress, the ninth session of which will be held at Salt Lake on July 14 to 18. Mr. Parsons has received a letter from the chairman of the Congress, stating that a very large attendance of delegates is expected to be there before the close of the session. The chairman says that, so far, California is not coming to the front as might be wished.

The Arizona representative of the congress has issued a circular, in which a strong appeal is made for a good representation of the Territory at the congress.

NEW YORK MARKETS.

Shares and Money.

[BY ASSOCIATED PRESS WIRE.]

NEW YORK, June 7.—The strong upward movement of the Grangers, which was the feature of the market during all of last week, received some check today on account of rumors of damage to the corn and other crops in the Northwest by the bad weather. Burlington and St. Paul, the leaders of the group, receded somewhat in value in consequence, and the whole market was more or less adversely affected. Northwestern also lost a fraction. The dealings in the two leaders, especially Burlington, were quite heavy, but strong support was fortheoming for them at the lower level. Indeed, St. Paul rose at one time a fraction above Saturday's close. The reaction in Burlington and, at times, in other special stocks, due to influences operating individually upon them, did not affect the strong undertone of the market. There was nothing, like a general reaction nor a general swing toward a lower range of prices, such as the room-traders have been keenly watchful for during the last two weeks. Rock Island was the strong element in the Granger group, and was an exception in showing a net gain. The market lost nothing of the broadening tendency which increasingly characterized it last week, and the dealings were well distributed and the buying good all through the general list. The heaviness of individual stocks was due to special causes, and this worked a decline in the market from time to time. But the decline was in almost all cases fully recovered. Commitsed numerations and the arbitrage brokers were also in the market, although the London exchange was closed in observance of the Whitsuntide holidays. This buying was indicated by the strength in Louisville and Nashville, the Northern Pacific stocks and Atchison preferred. The fact that there was no announcement of a spipment of the stock gains were the result at the close. Manhattan was notably strong, rising 2% after a decline of %. To-bacco and General Electric gained a point, but lost it. Sugar was strong, rising 1½ from the low poi Shares and Money. [BY ASSOCIATED PRESS WIRE.]

SUMMARY.

SANTA BARBARA COUNTY. apervisors and Board of Education

in Session-News Briefs. SANTA BARBARA, June 7 .- [Regu-SANTA BARBARA, June 7.—[Regultr Correspondence.] The Supervisors were in special session today (Monday) for the purpose of canvassing the official returns from the special election held in the Third Supervisor District one week ago. They found no discrepancy in the returns, and declared Frank Glass duly elected Supervisor for the Third District. Ed de la Cuesta, the Supervisor appointed by Gov. Budd was also there, and in his seat, so there was no place for Mr. Glass to officially sit down. A contest will follow, friendly in its nature, so far as low, friendly in its nature, so far as the duplicate officials, Cuesta and Glass, are concerned, but it will be made a test case in the Superior Court of this

BOARD OF EDUCATION. The County Board of Education met oday, and will remain in session for today, and will remain in session for two weeks. At present the board is busy reviewing pupils' examination papers, which will require several days, as the number of papers to be marked is considerably in excess of that of any previous year. The beard will also revise the course of study, introducing the newly-revised text-books of the State series. Next week they will hold teachers' examinations, the first three days being devoted to applicants for primary certificates, the two days following to grammar grade, and the next day to high-school applicants. There will be a large number of applicants for primary certificates, and many teachers will try to raise their standing from primary to grammar grade. There will be but few applicants for high-school certificates.

ELECTRIC CARS CROWDED.

ELECTRIC CARS CROWDED. Yesterday was the first day that the full street-car system was under electric influence, and the fifteen-minute service on the boulevard, State street, Mission and Cottage Hospital lines had about all it could do to handle the patronage. It was a surprise to every one to find that the suburbs which have always seemed so far out, are really close in, and there were hundreds of people selecting locations that would be suitable for residence, which a few days ago were considered too far out to be desirable. The opening of the Mission and Bath-street lines has marked out the lines of building and improvements for some time to come. Every car from the boulevard goes direct to the Arlington Hotel, and to the Cottage Hospital, and also connects at the Arlington with a car for the Mission. Mr. Miller, president of the road, says that the present service can and will be considerably improved in a short time. The schedule time can easily be reduced to twelve and one-half minutes, and some of the transfer connections can be bettered. Yesterday was the first day that the

SANTA BARBARA BREVITIES.

A number of young ladies were out for a drive yesterday, and when turning into State street one wheel of the vehicle caught in the car track, and was wrenched from the axle. Some men standing by caught the team before any further damage was done.

There was more than the usual crowd on the boulevard and plaza yesterday, and the many surf bathers indicated that summer has set in in earnest. Several sailing parties spent the day on the channel and the islands, returning late last night.

Closing exercises in the High School commenced today, and will continue throughout the week, Thursday being the last day of school. The graduating class has arrangements completed for the usual commencement demonstrations on Friday evening. SANTA BARBARA BREVITIES.

tions on Friday evening.

The Castor-oil Plant.

[Garden and Forest:] The castor-oil plant has been cultivated since the earliest historic time, and specimens of it supposed to be over four thousand years oid have been found in Egyptian tombs. It is perennial in India, its native country, but as it has spread into less congenial climates it has lost that habit, like the cotton plant, and is known to us as an annual. It is commonly supposed that the plant will grow wherever Indian corn will thrive, and this is true where it is meant to be used as an ornament, but a recent circular published by the United States Department of Agriculture points out that it can only be grown effectively in commercial quantities in warm climates, since its only value is the oil content of the seed, and the general truth which is applicable to nearly all oil-bearing plants holds in regard to this one, namely, the warmer the climate the larger the per cent. of oil. Some varieties of the castor bean will mature seed in the northern half of the Indian corn belt of the United States, but the plant cannot be cultivated there so as to yield paying quantities of oil. It needs a deep, fertile, loamy, friable and well-drained soil, and then where the climate is sufficiently warm it will yield from twenty to twenty-five bushels of beans to the acre, containing from 50 to 60 per cent. of oil. The seeds, after being soaked for twelve hours in tepid water, should be set five or six feet apart each way, two in a hill, and when three or four inches high the weaker plant should be removed. The weeds should be destroyed and the ground kept loose by surface stirring. The seed-spikes should be collected as soon as the pods turn brown, and before the seeds drop out of the pods in handling, and placed in the sun until the seeds are partly free from the pods. Frequent gatherings are necessary, so that only such spikes are removed as are in proper condition. The seeds are first cleaned; The Castor-oil Plant.

Our Spanish-American Visitors.

[New York Tribune:] The best possible reception should be, and doubtiess will be, accorded to the representatives of Mexico, Central and South America, who are presently to visit this country on a tour of industrial observation. There are no countries in the world with which it is more desirable to cultivate commercial relations than the republics of the South. Our Spanish-American Visitors.

Miss Addams for Office [Pioneer Press:] Miss Jane Addams I being urged for membership on th Chicago Board of Education, and if sh Chicago Board of Education, and it she is appointed, it will be a victory for education in that city. Miss Addams has leavened so much of Chicago, and that without making any fuss about it, that she ought to be able to make something of almost any board of education.

ON MARENGO AVENUE CALLS OUT THE DEPARTMENT.

Serious Damage-Routine Busi ness Transacted by the Council.

PASADENA, June 7.—[Regular Correspondence.] An alarm of fire was turned in about 9 o'clock this evening from the corner of Colorado street and Marengo avenue. The department and Marengo avenue. The department turned out very promptly. A big crowd of men and boys quickly gathered and pursued the engine. The fire proved to be in a two-story frame cottage on North Marengo, above Walnut street, the property of W. H. Hill. Smoke was pouring from the roof and flames could be seen through the second-story windows. The front door was forced open by the firemen and a stream of water was thrown upon the flames, which were soon extinguished. The full extent of the damage is not yet definitely known, but it will probably not exceed \$200. It is covered by insurance.

exceed \$200. It is covered by insurance.

Some uncertainty exists as to the origin of the fire. The cottage has been vacant for a month or more, but Mr. Hill has recently had an opportunity to rent it again and a woman was employed today in cleaning the house, in readiness for the expected tenants. There was no fire in the house during the day, however, and so far as known no one had been in it except the woman who was engaged in cleaning. The suggestion has been made that the fire may have been caused by some tramp who had broken into the house.

Mr. Hill was at his home on North Euclid avenue when the fire occurred. When he reached the scene the flames had been extinguished.

THE CITY COUNCIL.

The meeting of the City Council this afternoon was largely occupied with the reading of monthly and quarterly reports. The remainder of the session was devoted to routine business.

The report of City Treasurer John McDonald for the quarter ending May 31 showed balances as follows: General fund, \$175.23; sewer fund, \$1220.74; library fund, \$3629.05.

The Street Superintendent's report

library fund, \$3629.05.

The Street Superintendent's report for May showed that thirty-five street and sewer permits had been issued, the fees amounting to \$8.75.

Tax Collector Lacey reported that he had collected in May dog licenses amounting to \$45, and business licenses amounting to \$5, a total of \$51.

A resolution of intention for the improvement of West California street between Orange Grove and Grand avenues was passed. A number of ordinances were passed relative to grades upon various streets.

DOG LICENSES.

From one source at least the city will gain a largely increased revenue this year. The number of dog licenses is already nearly three times as great as last year, and nearly ten times as great as two years ago. The number issued since March 1, 1897 (the beginning of the municipal year,) is 457, yielding a revenue of \$499. Last year the number was 179, yielding \$179. The year previous only forty-six licenses were issued. The increase is due to the careful canvass of the city that was made this year, obliging every owner of a dog to take out a license.

The Henviest Yield of Beets Ever

CHINO, June 7.—[Regular Correspondence.] The best season is now so far advanced that it can be said definitely that Chino will this year have not only the greatest acreage of beets in its history. in its history, but that the yield per acre will exceed that of any former year. Reports from Anahelm and Hueneme are to about the same effect, and it is now roughlly estimated that the Chino factory will this year handle in the neighborhood of 120,000 to 130,000 tons of beets, from which there will be extracted something like 17,000 tons

tons of beets, from which there will be extracted something like 17,000 tons of refined sugar.

If the price of beets average \$3.50 per ton this will give the beet-growers about \$450,000, while the factory will also pay about \$125,000 for crude petroleum for fuel and a large sum for wages and other expenses. Thus it is evident that the company will distribute over half a million dollars within the next six months. It will not be a losing investment for the company, however, as without considering the bounty question, the output of sugar from the factory, at 4 cents per pound, will be worth about \$1.360,000.

The immense stretches of beet fields now present a striking appearance. For miles the sea of beets is spread before the eye. They are growing with wonderful rapidity, and the farmers all wear happy looks in contemplation of the coming harvest.

Close of a Successful School Year.

Revival of Mining. ESCONDIDO, June 7.—[Regular Cor-ESCONDIDO, June 7.—[Regular Correspondence.] School work has been the chief topic in Escondido for the past week. The closing exercises of the public school were of more than ordinary interest. The commencement exercises of the High School took place in the college chapel on Friday evening. There were four graduates—all young ladies. The high grade of the work done in this school may be judged of by the fact that this is the third year since the organization of the school, and yet the proficiency has been such that the examiners from the university have accredited it to the university, and so general has been the satisfaction with those who have been sent to make the examinations that

the faculty feel highly complimented. The school has been under the management of C. H. Meeker from the start. His assistants have been Miss Almira Bixby and Mrs. Williard. Escondido feels justly proud of her schools.

The election on the 4th inst. for School Trustee was more than ordinarily quiet. But two names were voted for. Arthur Jones was the successful candidate.

The Escondido gold mines have been reported sold on several occasions, but such was not the case, except in the mind of some one over-anxious to report something. Now there seems no doubt that a sale has actually been made and the new management has begun operations. Judging from indications this means much for Escondido.

There has not been a case in the Police Court in so long that the townspeople hardly know that such an institution exists here.

SANTA ANA, June 7.- [Regular Correspondence.] It is now considered be-yond doubt that the baby which was removed from Santa Ana last Wednes-day, referred to in Sunday's Times, is the same infant that was carried about by "J. E. Ervan" in Los Angeles on that day and finally left at the Police Station. At any rate, the infant which was taken from its unfortunate young mother's breast in this city, has not been returned, and there are a number of people who saw the little bundle go out in the grandfather's arms who are very indignant. The girl herself has admitted that the child was taken from her against her wishes. Whether anything will, or can be, done by the authorities is doubtful, and names are, therefore, withheld. But the little waif who was so heartlessly abandoned in Los Angeles belongs in Santa Ana, whether it is ever returned or not.

When a game was announced for Sunday with the Seventh Regiment team of Los Angeles, on the regular series for the Ex-aminer prize, it was thought a foregone conclusion that the Cobb team would lost the first game of the series for the prize, and it would only need a sim ilar result in the next one to lay it out entirely. There was a good attendance in grand stand and bleachers to witness the opening of the tournament in this city, but when the play began it was seen that the Los Angeles team was doomed. The result was too one-sided to record in extenso for when the game was called at the close of the ninth inning the score stood 21 to 6 in favor of the Cobb team. FEUDGE STREET OPENING. In the early days of San Bernardin a street to the east of town was laid out on the map, recorded and accepted as a street by those in authority, but which has never been fully opened up. As far as gone it bears the euphonious name of "Feudge," and when the settlers interested asked for its opening through the Waterman ranch from Third street to Mill, the manager of the ranch said "fudge" and secured a lawyer to enter a protest against it, as it takes between eight and then acres of the ranch, besides cutting in two near the middle line. The matter is up before the Board of Supervisors, but as the land in question has for forty years been de facto a public street, it looks as if the ranch would have to open its heart for the public good.

Waste of Vital Force

WASIC OI MIGHT FULCE

IN MEN HAS DRAINED THE SWEETNESS from millions of lives. It unfits men for busices or pleasure and makes life loathsome to those who suffer from it. If you would be strong in mind and body; if you would throw off the fetters of wretchedness caused by early abuse and the mistakes of your life, let us explain to you how it can be done in nature's own way—by properly applied ELECTRICITY. This is the essence of vital force, and when infused into the body by DR. SANDEN'S ELECTRIC BELT it will renew the vigor in the weakened functions and restore manhood.

DR. SANDEN'S ELECTRIC BELT, with improved Electric Suspensory, sures Nervous Debility, Lame Back, Loss of Memory, Confusion of Ideas, Rheumatism and Kidney Troubles, restores vital power, stops all unnatural was the confect of the current or we forfeit \$800.

SANG LIKE AN ANGEL. Miss Yaw Sings for the Sick Children.

While in San Francisco last December Miss Yaw's attention was called to the Children's Hospital, and her sympa-thies were at once enlisted. Knowing of no way in which she could give them greater pleasure, she arranged for a little concert, and on a Sunday for a little concert, and on a sunday afternoon went to the hospital, where around in a great sun-room, were rows of little beds, each containing the wan face of a little sufferer. There were about eighty or one hundred all told, and there she sang for them as she has rarely sung to most brilliant assemblages, and never did she have a more appreciative audience.

blages, and never did she have a more appreciative audience.

After each selection the patter of little hands and the row of beaming faces testified to the appreciation of her audience. One little fellow was heard to remark: "She must be an angel come down to see us little girls and boys." and indeed she sang like an angel. When it came time for her to go the little fellows pleaded for just one more song, and then another, and when she was at length able to retire she had a cheery word and a sweet had a cheery word and a sweet e for each of the little sufferers will linger long in their hearts

and memories.

The matron assured her that her singing had been of more benefit than any amount of medicine or treatment.

And now this charming artist is to sing for the benefit of the newsboys, those bright little walfs of humanity who are adrift in the world without homes or friends, at the Los Angeles Theater next Monday night, and the occasion will be a memorable one in the musical annals of Los Angeles.

LETTERS TO THE TIMES.

"Get Back to the Land."

"Get Back to the Land."

SOLDIERS' HOME, June 7.—[To the Editor of The Times:] George Martin, in a letter to The Times. in your Sunday issue, states many self-evident facts, such as stagnation in trade, over-production, increased use of labor-saving machinery, etc., but offers no remedy. The great and only solution is such legislation as will open the tillable land to the people, so they can cultivate the soil, and live upon its products. The can be done-by prohibiting by law the holding of principalities by one owner or corperation, and the assessing for taxes at something near the asking price of the holdiers. Millions of acres are held out of the market from actual settlers, at from £36 to \$350 per acre, that are aszessed at from \$1 to \$5 per acre, and cost the present owners a few years back not over \$50, either by foreclosure of mortgages on Mexican owners, or their heirs, or by purchase, or more often intermarriage. In a large majority of cases these lands are not worked by their owners, but by renters, lessees, or on shares, with the nominal owners, by the croppers, who take all the risk of a crop, thus enabling speculators to hold said lands for an inordinate price without any actual labor or improvement. Assess such lands at 75 per cent. of asking price, and then actual settlers will have a show. The only remedy is "get back to the land." The only remedy is "get back to the land." EUREKA.

SANTA BARBARA INDIANS A Dreadful Secret

IS A SECRET WHICH ONE IS afraid to think of even when alone. It is the kind of secret that makes man shudder and wish it had never happened. Wishing don't count nowadays. Perhaps wishing never did count. You must act. You must get rid of your skeleton. You must get rid of your skeleton. You must be boys no longer. You must be a real man. Now, to return to true manhood is no easy project. It requires will to make up your It requires will to make up your mind. Then you have to select the right cure, the best cure, the cure that will keep you cured—and that's no easy task. Every butcher who fails in butchering takes to pill-ing. Every painter who fails to paint signs for others paints a doctor sign for himself and buys a big black hat. He needs the hat as bad as the sign. It is a pity, too Now, here are 10,000 reas single reason why you should be cured by the Hudyan remedy treat-
